The Wall Street Journal reports that trailer sales in the United States last year crossed the half billion dollar mark-a gain of \$65 million over 1955. People soliciting funds for the Red Cross and numerous other national and local campaigns report that residents of the trailer parks are very responsive and quite generous. ## JOHN MORLEY How to Reduce Taxes by Billions of Dollars

The first part in this issue will deal with the problem of why taxes are high . . . and the secend part in the next issue of "After Hours" will deal with a plan for reducing taxes by billions without sacrificing defense and other essential programs.

Taxes will be reduced by at least \$25 billion without endangering American security, without jeopardizing our military defense program, and without eliminating the necessary services of govern ment in its responsibility to the

Taxes cannot be reduced and will most certainly keep increasing . . . so long as politicians continue to "butter-up" their constituents at home by complying with their ridiculous temands for a thousand things they used to no for themselves.

SELFISH AND thoughtless millions have been taught by egually selfish and thoughtless politicians government with no end in sight. seems apparent that any office holder who advocated reducing the frills and services of govern ment would have a hard time getting re-elected.

But unless public servants take that gamble with their political future and tell the people the facts of life, they will be guilty of leading the nation on the inevitable road to bankruptcy.

ABOUT THIS TIME each year millions of taxpayers will have to go into debt to pay their taxes. ich of the past 25 years has reduced the net take-home pay of our people through taxes and through inflation. One of the reasons for this destructive in flation is government spending and the increased billions in go ment spending have been collected by higher and higher taxes

from the same taxpayers. We the people . . . with the aid of many irresponsible have opened the od-gates leading to an economic crisis and no one seems to w how to stop it. This is what makes our present government financial position so dangerous.

NEITHER REPUBLICANS nor Democrats have the courage to mitted to more and more spend ing, with inevitable higher taxes. to pay for the greatest congiomeration of "frills, services, pork barrels, paternalism, politics, bureaucracies" the country has ever seen.

Most politicians are ignoring the facts of life . . . the lessons of history . . . the inevitable of history bankruptcy of any government on such a rampage of spend as we have experienced in the past 39 years.

IRRESPONSIBLE Politicians are spreading "soothing oil" with assurances that "our increased national product . . . our increased business volume industrial wealth" will continue to pay such back-breaking taxes, which have already mortgaged the lives of our great grandchildren to the year 2,000.

Already overburdened with a \$271 billion debt . . . costing us in interest alone the incredible m of \$7 billion a year are called upon to put up another \$71.8-billion for this fiscal year. the largest peace-time budget in

IN RECENT years, under both Democrat and Republican administrations, and basically for the same reasons, heavy progressive taxes permitted our government to take more from the people and to spend more and more of their earnings.

Instead of the citizen saving his surplus, the government takes more and more from him for a variety of projects, good, bad or indifferent, forcing him to depend more and more on government for what he used to do for himself, his family and his com-

Inevitably this leads to bigger and higger government, higher and higher taxes, and lower lower savings on the part of the individual. This legalized confiscation finally reaches a point any more, so big government resorts to deficit financing, or borrowing, thus increasing the pubterest hidden behind a complicated financial system which the average citizen caunot compre

izes that he bartered his freedom for a lot of so-called "free gov-ernment services and frills" and finds himself actually working for the government, instead of for

This is known as the back door No invasion, no aggression, no atomic war . . . but liberty is lost just as though all of these things

When taxes get so high that the largest part of what a person earns goes for taxes, he is actualworking for the government. The government controls him. The government can give the orders and pull the strings. Later it can force him to buy at whatever prices it dictates. All this is done gradually and so legally that no one suspects the inevitable road to Socialism.

AS BEST AS WE could check in round numbers, the federal government in just the past 10 years took from the American people the fantastic sum of billion dollars in taxes. This is 30 times more than the annua average of all previous 150 years.

The federal budget for the 1957 fiscal year is \$71.8 billions dollars, the largest in any peace-time year in U.S. history. To raise this money the governme takes 21 per cent to 91 per cent of all personal incomes, plus more than 50 per cent of all profits earned by American busi-

Only 1.6 per cent of federal taxes can be collected from incomes at rates above 85 per ce Only 6 per cent can be collected from incomes at rate above 75 Only 13 per cent can be collected from incomes above 20 per cent. More than 80 per . we repeat, more than 80 per cent of the taxes collected are derived from those who pay

the minimum tax of 20 per cent. In 1925, taxpayers with an in come of \$5,000 a year paid only \$13 in taxes . . . today the same taxpayer pays almost \$1,000 on the same \$5,000 income. This does not include all the rest of the taxes he is called upon to pay and which are hidden in goods and services he requires.

INSTEAD OF PUTTING the driver in jail for from five days to a year, as suggested, when he nabbed a second time for CVC 502, which means driving while under the influence, or socking him from \$250 to \$1,000, why not for good. PALM BEACH, Fla .- Now, if ever, come perfect days along Florida's Gold Coast. In April, the sun is no longer just a some-time thing and the whole resort resembles a highly imaginative picture postcard by a Hollywood

Nonetheless, the mothballs (or their Southern equivalent, antimildew chemicals) are out and the shutters are going up Mounds of outgoing luggage stand in front of the hotels and the members of the "cottage" farewells, a la Sarah Bernhardt.

BUT NOTHING denotes the end of the season more conclusively than a poignant ad in the Palm Beach Daily News, society's daily bible, that reads, "Gentlemen's exquisite, unique evening watch, onyx case, platinum and dia-monds; will sell lalf cost or

There is probably a three-act comedy of manners behind this ad. Obviously, the season is over and the gentleman needs traveling money. Did he have a bad season at the bridge table? was it a classic case of gigilo meets dowager; dowager gives watch; now watch must go cause gent wants to blow?

OR WAS IT AN even more classic case of gentleman meets golddigger, gentleman goes to c'eaners, gentleman must hock watch for cash or car, or become the only beachcomber with an exquisite, unique timepiece.

## **English Teacher** Wins Fame as Snake Catcher

English Teacher Virginia Gor-don is fast winning fame as Palm Springs High School's number one snake catcher.

The nimble Mrs. Gordon last week startled students and faculty members by snaring a three foot red racer on the school grounds with her bare hands.

"He bit me a few times, but he wasn't dangerous," said Mrs. Gordon, pointing to the faint red scratches left by the pin-point fangs of the outraged reptile.

MRS. GORDON explained that she occasionally picks up reptiles
—both harmless and poisonous—
for her husband, Prof. Kenneth Gordon, an Oregon State College

Gordon is planning on some rep tilian research here this summer and Mrs. Gordon is doing her best

'He appreciates my little efforts," she noted.

MRS. GÓRDON, who lives at Rancho Mirage, said she was al-ways afraid of such critters until she met Gordon. Now she takes exception with parents who create

needless fears in their children. "Most snakes are harmless and do quite a bit of good," she said.
"Of course, children should be careful, but they shouldn't be afraid."

SNAKES ARE generally "gentle little things," she remarked, add-ing that few will bother you before you bother them.

However, Mrs. Gordon had a of warning for mothers whose children play in the sand wastes on the eastern side of town. She has found several well-camouflag

"WIG FOR A BALD EAGLE" I want to thank him for giving me the opportunity to pay a Tribute to the Eagle, our National Emblem. Some people claim the Eagle shouldn't be our National Emblem because it's mean and vicious, but what do they know. Eagles are very lovable, I know because when I was a youngster I had a Pet Eagle and he was the nicest Bird you'd ever want to meet. Unfortunately the neigh-bors complained, so to fool them I painted him Red and Yellow and told everbody he was a Parakeet with an overactive Thyroid. I even taught him how to talk and although I know for a fact he was the only Eagle in captivity with a vocabulary of over 150 words it didn't mean much. Everything he said sounded like. THERE

A surprising number of smart boxing men think that young Tony Anthony is almost a cinch to de feat Archie Moore for the light becvyweight title when they meet, probably at Detroit, June 7

Recorded with the County Recorder, 99-year leases are comparable to "fee estate," may be easily sold, both home and lease, rented, passed on to children and heirs-the same as if you had a deed. Recent changes in the California laws, legalizes institution loaning on 52 year and more leases. Our leases are 99-year leases.

#### CITY of BEAUTIFUL TREES and LOVELY HOMES

FOR VISITORS AND NEWCOMERS, Banning offers a new adventure in living! Unspoiled and unhurried by metropolitan turmoil and congestion, it has retained all the delightful charm of a country environment. Yet, its lovely hones and community facilities are strikingly modern. Few communities possess this rare combination of a healthful, mild year round climate, clear dry air free from smog, the abundance of sunshine and a dramatic setting of indescribable grandeur between Southern California's two highest peaks. It is not surprising that more and more people stay here. They not only enjoy all the desert in season, but picturesque mountain resorts and other scenic spots beckon throughout the year from just a short distance away. A glorious springtime, cool summer evenings, delightful fall days — all are in store for you. Why not try this adventure?
